A diagram illustrating a geometric concept. It features three horizontal lines. A transversal line intersects all three from left to right. The top line contains three black dots. The middle line contains two black dots. The bottom line contains one black dot.

A diagram illustrating a triangular lattice structure. It consists of three sets of parallel lines that intersect to form a grid. The lines are drawn with a light gray color. The intersections create a series of equilateral triangles. The vertices of these triangles are marked with small black dots. The lines are arranged such that they form a regular pattern of triangles across the entire area.

A diagram consisting of three black circular dots arranged in a triangular pattern. The top dot is connected by straight lines to the two dots at the bottom, forming a triangle.

A diagram consisting of three parallel diagonal lines. The top line has a dot at its left end. The middle line has a dot at its left end and another dot at its right end. The bottom line has a dot at its right end.

A diagram illustrating a triangular lattice structure. It consists of three parallel vertical lines and three diagonal lines that intersect them. The intersections form a triangular grid of six small triangles. Each triangle contains a black dot at its top vertex.

A diagram consisting of three sets of parallel lines. Each set contains two black circular dots. The first set has its dots at the top and bottom. The second set has its dots in the middle. The third set has its dots at the top and bottom.

A diagram consisting of three parallel horizontal lines. On the top line, there are three points labeled A, B, and C from left to right. On the middle line, there are three points labeled D, E, and F from left to right. On the bottom line, there are three points labeled G, H, and I from left to right.

The image shows three separate pairs of black dots. Each pair consists of one dot positioned above and to the left of another. A thick black diagonal line connects the top-left dot to the bottom-right dot in each pair.

100%

A diagram illustrating a triangular lattice structure. It consists of three sets of parallel lines that intersect to form a grid of equilateral triangles. The lines are drawn with a light gray color, and the vertices where they intersect are marked with small black dots.

A diagram consisting of three black dots arranged horizontally. Each dot is connected to its neighbors by diagonal lines, forming a triangle-like shape.

A diagram consisting of three parallel diagonal lines. The top line has a dot at its left end. The middle line has a dot at its right end. The bottom line has a dot at its left end.

Three slanted parallel lines intersected by a horizontal line. The first line from the left has a dot at its intersection with the horizontal line. The second line has a dot at its intersection with the horizontal line. The third line has a dot at its intersection with the horizontal line.

%%%

A diagram consisting of three parallel diagonal lines. The top line has a dot at its left end. The middle line has a dot at its left end and another dot at its right end. The bottom line has a dot at its right end.

A diagram consisting of three black dots arranged in a triangular pattern. Each dot is connected to the other two by straight black lines, forming a triangle.

A 3x3 grid of nine stylized letter A's. Each A has a small, curved, upward-pointing arrowhead at its top vertex. The arrows point towards the center of the grid.

The image displays six characters arranged in two rows of three. The top row contains three uppercase 'A's, each featuring a small, curved, tail-like shape extending from the top right of the vertical stem. The bottom row contains three lowercase 'á's, each with a similar curved shape extending from the top left of the vertical stem. All characters are rendered in a bold, black, sans-serif font.

È É Ë Ì Ï Ò

The image displays a 3x4 grid of twelve ligatured characters, each consisting of a large letter 'E' with a smaller diacritic placed above it. The diacritics include: acute (é), grave (è), circumflex (ê), tilde (ë), and diaeresis (ê). The characters are arranged in three rows and four columns, demonstrating the use of these diacritics in different contexts.

A diagram consisting of five vertical black bars of equal height, spaced evenly apart. Each bar has a small black triangle pointing downwards at its base, indicating they represent the columns of a matrix.

The image shows four vertical black lines of varying heights. The first two lines are of equal height and are positioned side-by-side. The third and fourth lines are also of equal height and are positioned side-by-side to the right of the first pair. Each line has a small triangular arrowhead pointing downwards at its bottom end.

III III III III

III III III III

III III III III III III

III III III

The image shows three groups of vertical black bars. Each group contains two bars of equal height. The first group has its bars positioned at the top of the page. The second group has its bars positioned in the middle of the page. The third group has its bars positioned at the bottom of the page. These bars represent the chromosomes mentioned in the accompanying text.

III III L L

III III III III

III III III

III III III III

III **III** **III**

The image shows three groups of vertical bars. Each group contains two bars of equal height. The first group has its bars positioned close together. The second group has its bars positioned further apart. The third group has its bars positioned even further apart. All bars are black and have a small triangular point at the bottom.

The image shows three separate groups of vertical black bars. Each group consists of two bars of equal height. The first group is positioned on the far left, the second in the middle, and the third on the right. These groups represent the letter 'III' in a stylized, blocky font.

A 2x7 grid of 14 letters 'H' and 'I' used as a watermark pattern. The letters are rendered in a bold, black, serif font. Each letter is partially cut off by diagonal lines, creating a repeating geometric pattern across the entire grid.

À Á Â Ã Ä Å Ç È É Ë Ì Í Ò Ó Õ Ý Ý Ñ Ñ

‘И’ ‘И’ ‘И’
‘И’ ‘И’ ‘И’

The image displays a 3x4 grid of 12 ligatured characters, likely from a historical typeface. The characters are composed of two main strokes: a vertical stem and a horizontal bar. Each character includes a small, distinct diacritic at the top left. The variations in design include different widths for the stems and bars, and different styles for the top diacritic, such as a small hook or a larger, more ornate shape.

Three stylized letter 'O's connected by a horizontal line. The first two 'O's have vertical stems extending downwards from their top points. The third 'O' has a vertical stem extending upwards from its bottom point, and all three 'O's are connected by a single horizontal line passing through their centers.

The image shows three stages of drawing a circle. The first stage is a thin black outline of a circle. The second stage adds a horizontal line through the center, representing the filled interior of the circle. The third stage is a thick black outline of the circle.

0 0 0

000

o o o

000

Three stylized letters 'O' are shown side-by-side. Each letter has a thick, dark outline and a thin, light-colored horizontal line passing through its center.

The diagram shows three ellipses side-by-side, each centered at the origin of a coordinate system. The first ellipse on the left is very elongated horizontally, indicating high eccentricity. The second ellipse in the middle is less elongated. The third ellipse on the right is nearly circular, indicating low eccentricity. All ellipses have a horizontal major axis and a vertical minor axis.

Three ellipses of increasing size, centered horizontally, representing the progression from a narrow oval to a wide circle.

Three circles of increasing size are arranged horizontally. The first circle on the left is the largest, followed by a medium-sized circle in the middle, and a small circle on the right. Each circle has a horizontal line passing through its center.

Three ellipses of increasing size, centered horizontally, representing the progression from a narrow ellipse to a wide circle.

The diagram consists of three separate circles arranged horizontally. Each circle has a thick black outline and a thin horizontal line passing through its center, representing an orbital path. The circles are identical in size and shape, spaced evenly apart along the horizontal axis.

Three circles of increasing size, arranged horizontally. The first circle is the smallest, the second is medium-sized, and the third is the largest. Each circle contains a horizontal line segment passing through its center.

The image shows three circles of increasing size from left to right, representing the phases of the moon. The first circle is a thin crescent on the left. The second circle is a larger crescent in the middle. The third circle is a full circle on the right.

Three circles of increasing size, each containing a horizontal line segment, representing the progression from a thin crescent to a full circle.

Three circles are arranged horizontally. Each circle has a thick black outline and a thin horizontal line passing through its center.

Three large, black-outlined circles of increasing size are arranged horizontally. The first circle is on the left, the second is in the middle, and the third is on the right. Each circle contains a single horizontal line segment.

Three large black circles are arranged horizontally. Each circle contains a thick horizontal line that passes through its center. The circles are solid black with no internal texture or shading.

θ

Three black circles of varying sizes are arranged horizontally, representing the eyes of the owl. The circles are positioned such that they overlap slightly, creating a sense of depth and perspective.

Three black-outlined circles with white centers, arranged horizontally. The circles are slightly overlapping, creating a sense of depth or perspective.

Three black circles of varying sizes are arranged horizontally, representing the eyes of the owl. The circles are positioned at different heights and widths, creating a sense of depth and perspective.

Three large, black-outlined white circles are arranged horizontally. The first circle contains a vertical black line segment from top to bottom. The second circle contains a horizontal black line segment from left to right. The third circle contains both a vertical and a horizontal black line segment intersecting at their midpoints.

Three large black circles are arranged horizontally. Each circle contains a thin black horizontal line passing through its center.

Three large, bold, black-outlined circles with white centers, arranged horizontally.

ö Ö ö Ö ö Ö

ö Ö ö Ö ö Ö

ö Ö ö Ö ö Ö

ö Ö ö Ö ö Ö

A 2x3 grid of six letters 'Ö' and 'ö'. The top row contains three 'Ö' characters, each with a different stroke style: a thin vertical stroke on the left, a thick horizontal loop at the bottom, and a thin vertical stroke on the right. The bottom row contains three 'ö' characters, also with different stroke styles. The letters are black on a white background.

Theta

The image consists of three side-by-side diagrams. Each diagram features a large, dark, irregular shape representing the Moon on the right and a smaller, dark, vertically oriented oval representing the Sun on the left. In the first diagram, the Sun's oval is positioned such that its top edge is visible above the Moon's upper curve. In the second diagram, the Sun's oval has moved downwards, so its middle portion is visible between the Moon's upper and lower curves. In the third diagram, the Sun's oval has moved further down, now positioned below the Moon's lower curve, indicating a more advanced stage of the event.

The image shows three separate rectangular outlines, each consisting of a vertical line on the left and a vertical line on the right meeting at the top and bottom. In the center of each rectangle is a horizontal line segment. The three rectangles are positioned side-by-side.

The image displays three identical sets of four-line handwriting guides. Each set consists of two horizontal lines (top and baseline) and two diagonal lines (ascender and descender). The first set contains an uppercase 'H' where the vertical strokes reach the top and bottom lines. The second set contains a lowercase 'h' where the vertical stroke reaches the top line and the horizontal stroke sits on the baseline. The third set contains a lowercase 'u' where the vertical stroke reaches the top line and the curved horizontal stroke descends to the baseline.

The image shows three identical sets of brackets arranged horizontally. Each set consists of a left bracket [at the top, a horizontal bar in the middle, and a right bracket] at the bottom. The sets are evenly spaced and aligned vertically.

The diagram illustrates the growth of a bracket over three stages. In the first stage, a short vertical line segment is shown. In the second stage, a horizontal line segment is added to the right of the vertical segment, forming a T-shape. In the third stage, another horizontal line segment is added to the right of the previous one, creating a bracket shape.

The image shows three identical trapezoidal structures arranged horizontally. Each trapezoid is formed by two parallel vertical lines and a horizontal line connecting their midpoints. The structures are evenly spaced and aligned vertically.

A handwriting practice row featuring the letters F, H, and I. Each letter is written three times in a cursive script. The letters are arranged in three columns: the first column contains three 'F's, the second contains three 'H's, and the third contains three 'I's.

Three identical black brackets are arranged horizontally. Each bracket has a vertical stem with a horizontal bar near the top and a curved hook extending from the right side.

EEH

The diagram consists of three identical vertical bar structures arranged horizontally. Each structure is composed of four horizontal bars of decreasing height from top to bottom. The top bar is the widest, followed by a narrow middle bar, a wider bottom bar, and the narrowest base bar at the bottom.

م م م م م م م م

A 2x3 grid of six stylized, handwritten-style numbers '3'. The digits are rendered in a bold, black, cursive-like font. Each digit has a unique, flowing stroke pattern that gives it a distinct, artistic appearance. The digits are arranged in two rows of three.
